Level 2: Supporting Joint Doctrine

Level 3: Joint Applicable Doctrine

Concepts - Doctrine Relationship

36th Joint Doctrine Working Party

1-3 Nov 05
(Joint Warfighting Center)

- **JP 3-70, Strategic Attack Decision**
(Army Position: Discontinue JP 3-70 Development)
- **IO Publications Realignment Decision**
(Army Position: Support Renumbering)
- **JP 3-26 Series Renumbering Recommendation**
(Army Position: Support Renumbering)

Conclusion

HQDA G-3/5(SSP) Doctrine Branch is the **primary advocate of landpower doctrine** in support of US and Allied Joint Force Commanders. The SSP Doctrine Branch works to build consensus with other Services and Combatant Commands to advance joint warfighting doctrine to the field in a timely manner.

Backup Slides

JP 3-70 Development

- **After 3 attempts, pub development remains unsatisfactory**
- **USA, USMC, USN not convinced that the subject deserves treatment in stand-alone publication; all 3 recommended development work cease**
- **USAF desires a stand-alone publication, but not happy with current draft; feels USAF expertise as TRA not used appropriately to produce current draft**
- **All Services agree that draft does not meet the intent of the PD and that the draft adds little value in its present form**
